: Dr. Joshua Lederberg To

Department of Genetics

FROM : Peter E. Pratt

Director of Development, School of Medicine

SUBJECT: P. S. Barrows

Many thanks for taking the time to read Barrows! material, and congratulations on the masterful approach.

We have checked him out through the Development Office, and can find no record that he is a violent trouble maker, so I would assume it might be safe for you to send your letter off to him directly.

I don't know what will come of this, but if \$100,000 could be obtained without any undue strings attached it should certainly be worth this effort.

Again my thanks for your help.
